

A modern, minimalist ceiling light fixture. It features a central vertical rod that connects to a circular, frosted glass shade at the top. The rod extends downwards and then branches out into three horizontal arms, each ending in a circular, frosted glass shade. The fixture is made of polished metal and is set against a plain white background.

The technical drawing illustrates the 'Lamp of the Future' with the following dimensions and features:

- Top View:**
 - Shows a central hub connected to three arms, each ending in a circular light fixture.
 - Overall width: 172.72cm.
 - Distance from the central hub to the center of each light fixture: 15.9cm.
- Front View:**
 - Shows the lamp's profile, including the ceiling mount and the vertical support pole.
 - Total height from the ceiling to the base of the light fixtures: 123.8cm.
 - Mounting bracket height from ceiling: 14.7cm.
 - Distance from mounting bracket to the first joint: 40.6cm.
 - Distance between the first and second joints: 20.3cm.
 - Distance from the second joint to the base of the light fixtures: 40.6cm.
 - Horizontal offset of the mounting bracket: 5.4cm.
 - Horizontal offset of the first joint: 1.6cm.
 - Horizontal offset of the second joint: 2.2cm.
 - Horizontal offset of the base of the light fixtures: 2.5cm.
 - Horizontal distance between the base of the light fixtures: 10.6cm.
 - Overall width of the lamp structure: 152.4cm.
- Detail:**
 - The mounting bracket is angled at 22.5° Max.
